

The JOHNSON 'CHOKER GRAPPLE'

is the yarding bonus you're looking for.

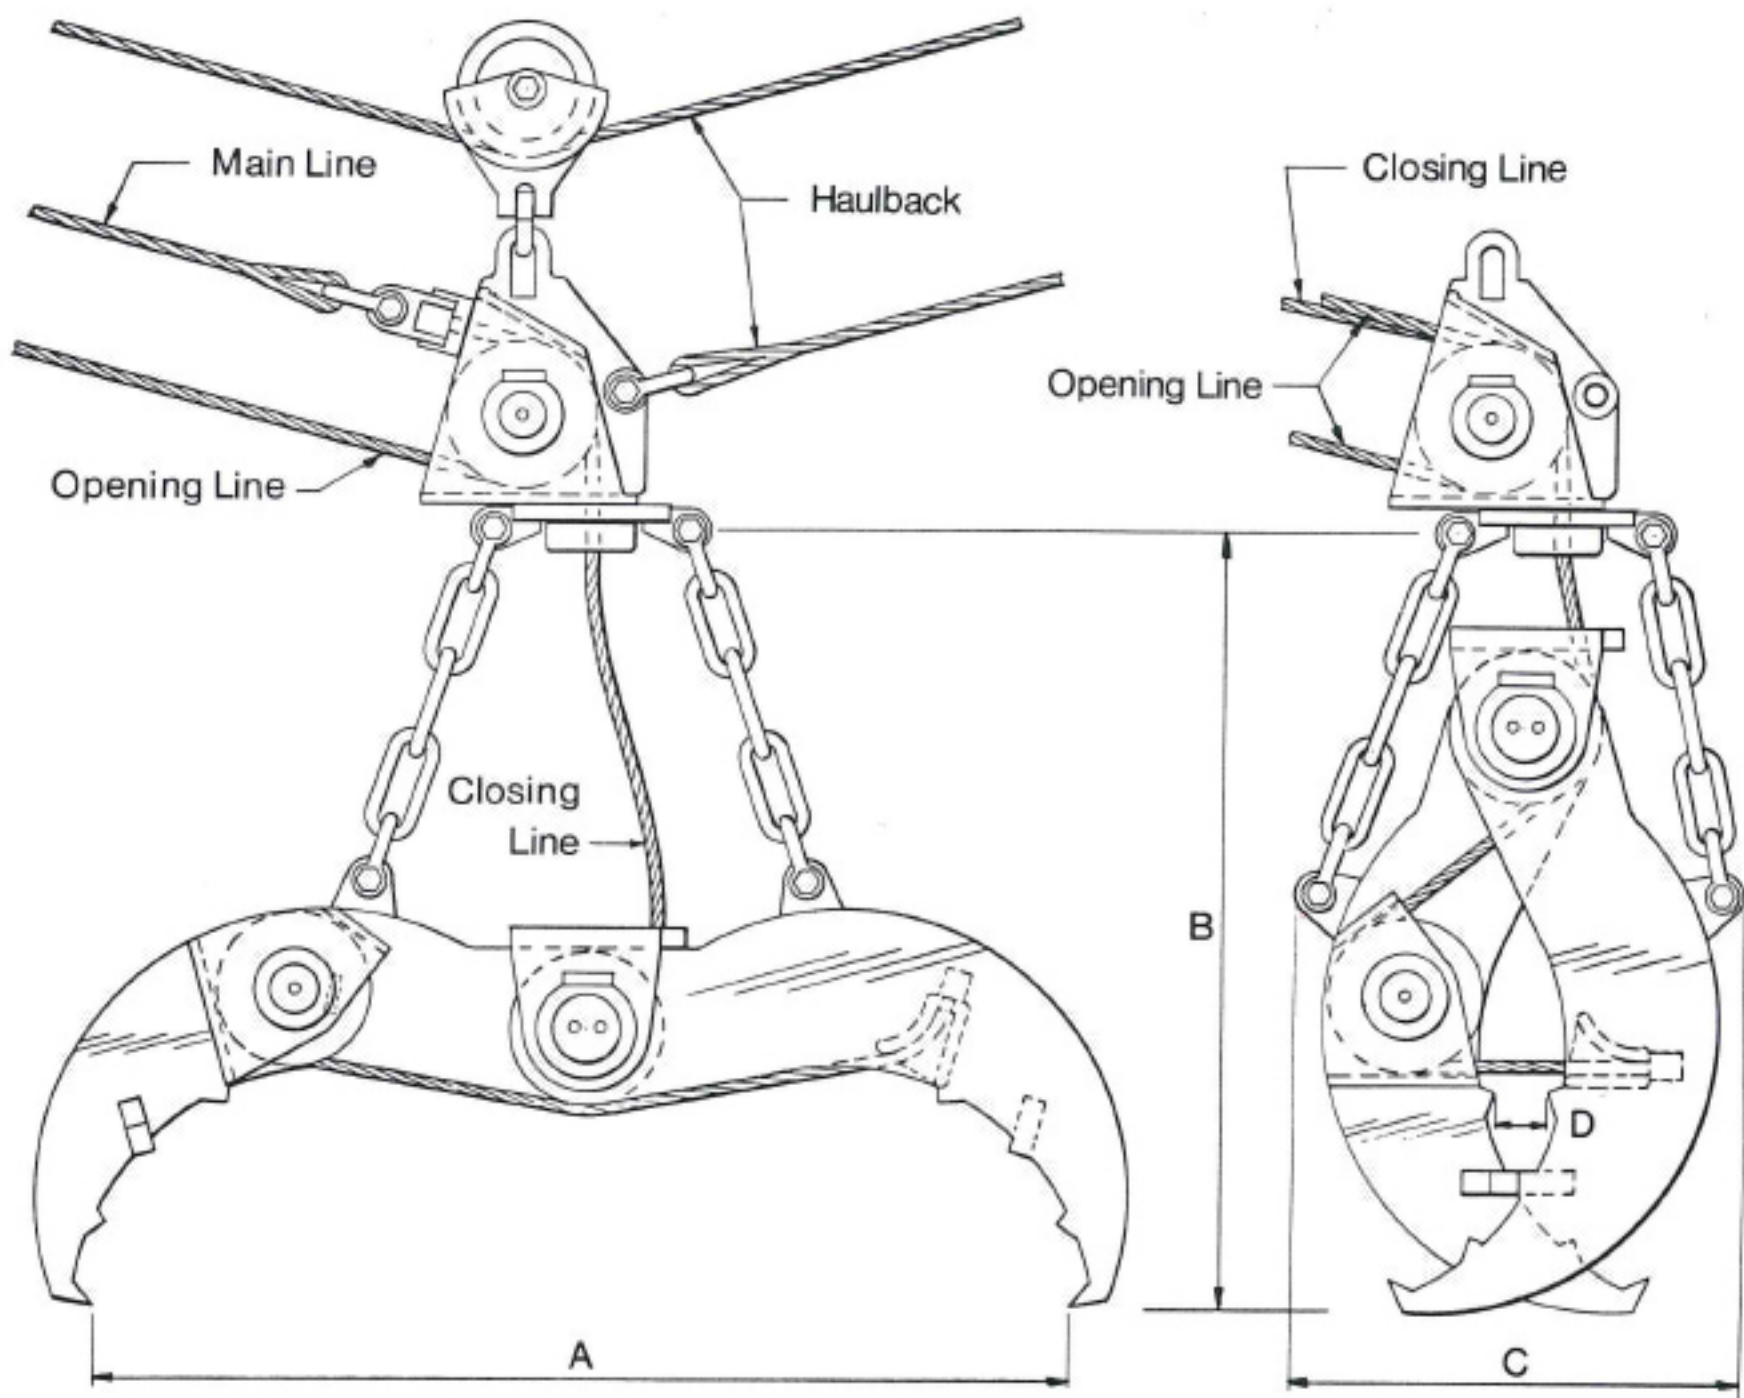

PRODUCTION FEATURES:

- Power closing action doesn't bounce open
- Tensioned "Choker Cable" action cinches logs in jaws
- Live closing cable works with log movement
- Yards steepest ground, deepest gullies
- Opens at landing without slacking haulback
- Short profile open and closed for minimum deflection
- Low center of gravity for better spotting and gathering
- Easily rigged with yo-yo block for equal mainline pull
- T1 jaws, hardened pins and bushings prolong grapple life
